

HERBAL ANALYSIS SERVICES

for pharmacological
& chemical analysis
of all natural products

*Fingerprint
Analysis for
Quality Control
of Herbal
Medicines and
Essential Oils*

*Isolation &
Characterisation
of Natural
Products*

*Rapid In vitro
Assays for
Providing
Pharmacological
Quality*

*Our Mission is to Provide Scientific
Evidence for the Quality, Safety & Efficacy
of Herbal, Nutraceutical, Cosmetic & Other
Natural Products*

Herbal Analysis Services

Quality Control of Herbal Medicines

- Over 25 years of experience on herbal medicines analysis
- Over 80 scientific papers published
- Several patents filed
- Over 100 standard reference drug of herbal medicines origin readily available in our chemical library
- State-of-the-art equipment-based analysis
- Extensive experience on working with scientists, herbal medicine practitioners, pharmaceutical companies, etc.
- Fingerprint analysis and herbal medicines standardisation based on known active ingredients

HPLC

Herbal Analysis Services

Isolation & Characterisation of Natural Products

- Firsthand experience gained from isolation and characterisation of several hundreds of small molecular weight natural products
- Unrivalled track record on project completion both in collaborative and contract researches
- Access to state-of-the-art analytical instruments

Pharmacological Assays

Over 25 years of experience on:

- Antibacterial, antifungal, anti-viral and antiprotzoal assays
- Anticancer activity tests using a range of mammalian cell lines
- A range of readily available assays for cell-free and cell-based antioxidant evaluations
- Various models of cytoprotective assays
- Enzymes, proteins and other molecular target analysis for neurodegenerative, diabetes and many other diseases
- *In vitro* models of inflammation

Herbal Analysis Services

Overview of Our Consultancy Services

We are happy to receive requests on:

- [Standardisation](#) and Quality Control of Herbal Medicines
- [Essential Oils](#) Analysis
- [Isolation](#) of Pharmacologically Active Natural Products
- [Identification](#) of Purified Natural Products – Secondary Metabolites
- [Antimicrobial](#) Assays
- [Antiinflammatory](#) Assays
- [Anticancer](#) Assays
- [Neuroprotective](#) Assays
- [Antidiabetic](#) Assays
- [Lectures](#), Seminars and Workshops
- In-house [Pharmacognostic](#) & [Phytochemistry](#) Trainings
- Literature Review of Herbal Medicines, Purified Compounds & [Our Publications](#)
- Scientific [Research](#) Collaborations
